**KAERA**

Korean-American Educational Researchers Association

재미한인교육연구자협회

Welcome to our spring edition of the newsletter!

The 2024 KAERA Conference is scheduled to take place at the Hampton Inn Philadelphia Center City-Convention Center on April 10, 2024. The overall schedule is now available, and a detailed program will be announced soon. Our dedicated Executive Group members and other committee members are working diligently to prepare for the conference. We are thrilled to include mentoring sessions, research roundtable sessions, an award ceremony, and a business meeting as part of this exciting event.

We are fortunate to announce an additional scholarship this year, bringing the total to three awards, two scholarships and one research grant program. Further details about these awards and scholarships can be found in this newsletter. Our commitment to providing increased support to our members remains a top priority. The KAERA Executive Group team is actively working to secure continued support from the Embassy of the Republic of Korea and the Korean Overseas Foundation, as well as maintaining collaboration with KSEA.

While our membership continues to grow, we acknowledge the need for improved membership management. Please visit our membership signup page at <https://www.k-aera.org/register/membership/> to register or update your membership information. There are various opportunities to support our organization through leadership roles, committee participation, and more. Your support is highly valued.

We look forward to seeing you in Philadelphia in April.

Warm regards,

Jongpil Cheon  
KAERA President
